## Ouris Health

### Solution Description

- **Summary**

Ouris Health provides a complete healthcare communication solution connecting patients with Primary, Secondary and Social care providers. The solution provides a safe and secure Online and Video Consultations along with Remote Monitoring and Virtual ward features.

- **About Ouris Health**

Ouris Health's Video and Online consultation capabilities allow Health or Care professionals to conduct secure live remote consultations with individuals or group of Patients/Service users/Proxies ensuring they can receive support relating to healthcare concerns. The solution reduces the need for travel and provides a greater flexibility and choice for its users.

The solution offers triage features and to make informed decisions about responses and able to provide instant self-help advice or sign post them to relevant services.

Ouris Health provides a complete Digital Health Experience with features of connectivity between health and care professionals, Remote Monitoring, Virtual wards along with Covid features (Vaccination details and Side effects logs) and Notifications. Solutions are available for patients in APPs to self-manage health and wellbeing (Blood Pressure, Pulse, Temperature, Breathing, Saturations, BMI, Weight, daily mood changes).

[View more information about this Catalogue Solution](#)

### Features

- Available as Web application and in IOS and Android (APP store and Google Play store).
- Real time Chat and Messaging with Triage and access control of patients (Virtual practice door).
- One to One and Group video Consultations with consent and recording features.
- Inter Team and Inter Organisational Connectivity – Chats, Messaging, MDT meetings and Video.
- Covid Monitoring and Notifications – SMS, APP, E-mail Alerts.
- Secure access control features with IP lock and Two factor authentications.
- Easy – NHS self-help information and video access to patients.
- Remote Patient Monitoring and Virtual ward features with Digital referral for acute admissions.
- Automated collection of patients' feedback along with reports.
- Detailed reports and analysis on usage of Online and Video Consultations.

## Implementation Timescales

Typical timescales and activities for an implementation, addressing any differences when transitioning from another Solution.

Ouris Health is a cloud based standalone solution with no additional installation requirements. Time period may change depending on the size of the practice and for an average size it is within 4 weeks from set up to launch.

## Client Application Type

Minimum recommended technical specifications for a user to implement the Solution effectively.

- **Browser based application**

Specification	Information
Browsers supported	Our minimum supported versions <ul style="list-style-type: none"> <li>• Google Chrome V.48 or later</li> <li>• Microsoft Edge V42 or later</li> <li>• Mozilla Firefox V63 or later</li> <li>• Safari (Mac) 10 or later</li> </ul>
Responsive design	Yes
Mobile first approach	Yes
Plug ins or extensions required	No
Minimum connection speed required	10Mbps
Recommended desktop aspect ratio and screen resolution	16:9 - 1366 x 768
Hardware requirements	Integrated or standalone Microphone or webcam

- **Native mobile or tablet application**

Specification	Information
Supported operating systems	<ul style="list-style-type: none"> <li>• iOS 12 and above</li> </ul>

Specification	Information
	<ul style="list-style-type: none"> <li>Android 10 and above</li> </ul>
Mobile first approach	Yes
Minimum connection speed required	10Mbps
Connection types supported	<ul style="list-style-type: none"> <li>3G</li> <li>LTE</li> <li>4G</li> <li>5G</li> <li>WiFi</li> </ul>
Minimum memory requirement	4GB
Additional storage requirements	None
Third party components required	None
Device capabilities required	Smart Phone (IOS and Android)
Hardware requirements	Integrated or standalone Microphone or webcam
Additional information	None

- Native desktop application**

Name of specification	Information about specification
Supported operating systems	Windows 10
Minimum connection speed required	10Mbps
Minimum memory requirement	4GB
Additional storage requirements	Non-Mandatory
Minimum necessary CPU power	Core 2 Quad Q6600 at 2.4 GHz or AMD Phenom 9850 at 2.5 GHz
Recommended desktop aspect ratio and screen resolution	16:9 - 1366 x 768
Third party components required	None

Name of specification	Information about specification
Device capabilities required	Integrated or standalone Microphone or webcam
Hardware requirements	Integrated or standalone Microphone or webcam

## Roadmap

Ouris Health's aim is to consult and take feedbacks from users and apply changes to the solution to provide a simplified patient journey.

Data protection, Confidentiality, Clinical safety, Usability, Information security is set at the heart of the solution to assist patients, Health and care professionals.

Ouris Health has a few immediate goals to achieve with integrations to provide a fully integrated solution for health and care professionals.

- IM1 Integrations
- Hospital solution integrations
- Integrations with GP Connect and EPS
- NHS Log in for Patients.
- NHS 111 Integration
- Development of QOF and Chronic disease management forms to GP Practices
- To achieve WCAG 2.1 AAA compliance
- More automated and integrated features with Alexa.
- New features for the APP – Medication Reminders and Diabetes and Mental Health monitoring

## Work- Off Plan

In order to provide buyers with an effectively functioning marketplace as part of transitioning existing arrangements from the GP IT Futures Framework and the NHS England Dynamic Purchasing System for Online Consultation Systems to the new DFOVCV Framework within a reasonable timescale, this solution has been through an accelerated assurance process. Necessary due diligence has been undertaken in key areas and the supplier is actively progressing through the full steps of assurance with completion expected within six months of the solution completing the accelerated assurance, under management of a Compliance Work-off Plan. As compliance against Standards is assured for this solution, this information will be updated.
